Govind S
Alappuzha, Kerala, IN

Backend-focused Computer Science student with experience building scalable web services and REST APIs using Go, Python, and Java. Passionate about system design, efficient logic, and developer tooling.

Skills

Languages: Go, Python, Java, C
Frameworks: Hugo, Spring Boot, Vue.js, Nuxt.js
Tools: Linux, Git, VSCode, Neovim

Education

Carmel College of Engineering and Technology / B.Tech CSE
2024-Present
Couse: B.Tech Computer Science and Engineering
University: APJ Abdul Kalam Technological University (KTU)
Year of Graduation: 2028

Activities

Game Development Workshop
JANUARY-2026, Carmel College of Engineering and Technology

UI/UX Hackathon (ScaleX)
MARCH-2025, Carmel College of Engineering and Technology

Projects

Online article platform
Tools/Languages: Java, Spring Boot, Vue.js, MySQL

Full-stack article publishing platform featuring a Vue.js frontend integrated with a custom rich-text editor. Robust backend using Java Spring Boot to facilitate RESTful APIs and leveraged a MySQL database for managing data and article metadata. Implemented storage and rendering for dynamic content display.

Web-based Expense tracker
Tools/Languages: Python, Django, SQLite
Developed a full-stack expense tracker app featuring a Django web app with integrated SQLite database.
